

Dear friends and colleagues,

After much thought & consideration, I have elected to sell my practice to Select Medical Corporation. Effective July 1st, Indy PT's North / Castleton Clinic will officially re-open as Select Physical Therapy--Castleton, & Pete Manzelli, MPT, MBA will serve as Center Manager.

When I took on the challenge of owning Indy Physical Therapy nearly four years ago, I had a great vision of where I hoped this practice would be in the future. I am disappointed that I did not achieve many of the goals that I set for myself & my practice, but I know that it was certainly not due to lack of effort. Ultimately, the ongoing challenges of managing a small private practice in this economy were too much to overcome, and I decided that my obligations to my wife, my family, my friends, & my faith needed to take priority over my business aspirations. I am thankful for the opportunity to lead a great group of people over these past four years. I am proud of the work that our entire staff has done and the reputation that we have established in this community.

On behalf of Indy Physical Therapy, PC, I would like to extend my sincere "thank you" to all of our patients & colleagues who have used our services in the past. It has been our pleasure to serve you, and I look forward to the opportunity to serve as Center Manager for Select Physical Therapy. I can promise that we will continue to provide the same quality of care & professionalism that you have come to expect from us, along with the advantages that come with being a part of a larger organization with greater resources.

Sincerely,  
Pete Manzelli, MPT, MBA  
Center Manager  
Indy Physical Therapy, P.C.
